EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Glenn Law on 01-31-2006.

The application has been amended as follows:

In claim 1 (currently amended) line 3, --assembly—has been inserted after "introducer".

In claim 6 (previously presented) line 2, --assembly—has been inserted after "introducer".

In claim 11 (new) line 2, --assembly—has been inserted after "introducer".

The above amendments were made to provide consistency for recited elements or the claims.

The following is an examiner's statement of reasons for allowance: the prior art does not disclose or fairly suggest a system for detecting the position of an end of an introducer in tissue including an introducer assembly with two ends, a pressure sensor coupled to an in fluid communication with the proximal end of the introducer assembly to measure pressure at the distal end of the assembly and to output a waveform, a core

pin with a channel forming a blood path between the two ends of the assembly and a side hole in fluid communication with the proximal end of the assembly via the channel.

Additionally, the amended claims are not subject to a double patenting rejection, and therefore the TD is unnecessary.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Glenn K. Dawson whose telephone number is 571-272-4694. The examiner can normally be reached on M-Th 7:30-5:00.
